Gary:

I had a good discussion with Frank about the size of crew that we need this week. We would like to try a Foreman, Truck Driver and 3 Laborers. This provides enough people to conduct the AST sludge removal operations with the associated bean pump wash down. This worked well last Friday.

Proposed crew work hours are 0700 to 1700.

Tasks

Continue with sludge removal in S T 8, complete bean pump wash down on tanks N OT 5 and N OT 3. Move on to the next AST grouping.

Continue to pump water from the North, South, and Middle Pond.

Ship waste to Republic and Lone Star as scheduled.

Back up activities

Count empty drums and totes.

Set up and wash empty drums and totes.

Finish removal of sludge in the warehouse bays and pressure wash the area.
